TRAWLER ELUDES A SUBMARINE

The Steam Fishing Vessel Walrus Puts Into Port After Narrowly Missing a Torpedo Fired From a U-Boat Off Cape Cod Last Night

(By Associated Press)
An Atlantic Port, Aug. 14.—A German submarine sighted off the tip of Cape Cod early last night fired a torpedo at the steam trawler Walrus which missed the vessel by a narrow margin. Captain Clayton Morrissey of the fisherman reported on arrival here today.

Because of the fog, Captain Morrissey said he was unable to escape and warn other craft of the danger. The Walrus was on the way to the fishing grounds and was about 7 miles north of Highland Light, Captain Morrissey said when the conning tower of the submarine was seen some distance away. The German quickly submerged, and a few moments later the wake of a torpedo was seen. Captain Morrissey turned about and started for port under full steam. The weather was very thick and he distinctly

heard several steamers blow their fog horns.

FINLAND IS GIVEN ULTIMATUM

(By Associated Press)
Washington, Aug. 14.—A report from Stockholm reaching the State Department today from sources considered reliable, says that the German government has addressed an ultimatum to the Finnish government requiring that the Finnish army prepare to march against the entente forces on the Murmansk coast within 2 weeks.

The 7127 Ton American Tank Steamer Frederick Kellogg, With Cargo of Crude Oil, Bound From Tampico to Boston, Sunk Last Night by German Submarine Off Ambrose Channel; 35 of Crew Landed, 7 Others Missing

OPPONENT OF WILSON IS RE-NOMINATED

(By Associated Press)
Birmingham, Ala., Aug. 14.—Congressman George Huddleston, whom President Wilson recently characterized as "in every way an opponent of the administration," has been re-nominated in the 9th district on the basis of returns available early today from yesterday's primary.

\$100 REWARD FOR HIGGINS

Circulars announcing a reward of \$100 for information leading to the return of Charles Higgins, alias Percy Higgins, to the State Prison, from which he escaped on Sunday morning, have been printed and are now being circulated about the country.

(By Associated Press)
New York, Aug. 14.—A German submarine approaching the very gate of New York harbor sank the oil tanker Frederick Kellogg off the Ambrose Channel last night. Thirty-five members of the crew brought here today reported that seven others were missing. These survivors were picked up by an American steamer.

The Kellogg was a new tank steamer of 7127 tons gross registry, valued at more than \$1,500,000 under command of Captain C. H. White. She was on her way from Tampico, Mexico, to Boston, with a cargo of approximately 70,000 barrels of crude oil. The vessel was owned by the Petroleum Transport Company and was launched a year ago this month at Oakland, Cal.

DESPERATE DEFENSE BY THE ENEMY

(By Associated Press)
Paris, Aug. 14.—General Humbert's army operating on the southern end of the Picardy battlefield, is reported to be progressing steadily toward Noyon. The desperate German defense of the Chaulnes-Roye road has caused delay in the starting of the Noyon position which is now said to be impending.

The army of General Rawlinson, which is holding the line just north of the French position, is meeting most desperate resistance along its whole front, the Germans being determined to retain the Chaulnes heights at all costs.

London, Aug. 14.—British troops have gained ground at the apex of the

Lys salient in Flanders, says the official statement from Field Marshal Haig.

East of Meteren the line was advanced slightly, while east of Vieux-Berquin, south of Meteren, patrols established a new line. There was no infantry fighting during the night in the British sector of Picardy.

Paris, Aug. 14.—Only the artillery was active during the night in certain sectors between Aere and the Oise, says the war office statement today. Along the Vesle where French and American troops are stationed, the Germans made vain raids.

YOUTHS 21 SINCE JUNE TO REGISTER

Registration to be Held Aug. 24 Should Not be Confused With that Pending Under New Legislation for Sometime in September

(By Associated Press)
St. Paul, Aug. 14.—Registration of youths who have reached the age of twenty-one since June 5, 1918, will be held August 24 according to a telegram received from Provost Marshal General Crowder at state draft headquarters today.

This registration is pointed out in the telegram, should not be confused with that pending under new legislation for sometime in September.

Washington, Aug. 14.—Registration on Saturday, August 24, of all youths who have reached the age of 21 since June 5, was ordered today by Provost Marshal General Crowder under a proclamation by the President.

The purpose is to add quickly to the almost exhausted Class 1 to meet army draft calls in September. About 150,000 young men will register, and most of them will qualify for Class 1 and thereby join the army probably within a month after their names are recorded.

GLOUCESTER SCHOONER IS SAFE IN PORT

CONDITION OF SEN. GALLINGER IS SERIOUS

(By Associated Press)
Gloucester, Aug. 14.—Owners of the fishing schooner On Time reported by members of the crew of the schooner Cruiser as having been sunk by a German submarine Saturday said today that the vessel was safe in port.

(By Associated Press)
Franklin, Aug. 14.—United States Senator Jacob H. Gallinger was reported today to be in a serious condition at a local hospital where he has been undergoing treatment since Saturday, suffering from heart trouble.

The Senator who is 81 years old, has not been in good health since returning from Washington in July. He was at his summer home at Salisbury Heights until physicians recommended last week that he go to the hospital.

JUST DAVID
By ELEANOR H. PORTER
Author of "Pollyanna"

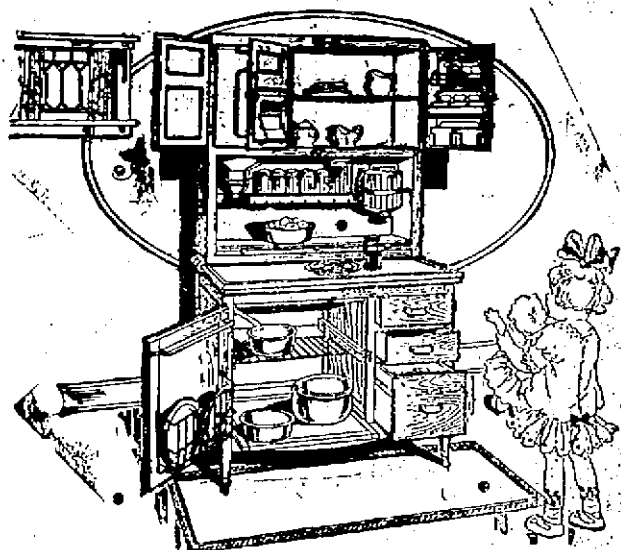

Ten year old David and his father (a famous violinist) lived on a mountain, with the woods, the wild things, and their two violins. Then a change came and David was left to the care of gruff farmer folk in whom the warmth of kindness was buried deep. But "Just David" brought music and sunshine into many lives and played a part in a very pretty romance.

ENEMY IS RETREATING FROM OISE

The strength of the German opposition to the advance of the allies from north of the Somme to just below Roye, has apparently checked for a time at least, their march eastward and the clearing of the Amiens-Montdidier sector.

This is not, however, the case with the French further east in the hilly and rolling country in the direction of the Lassigny and Nogent which are the ultimate objective of the French and the capture of which would have such an effect upon the German line and call for a readjustment of the line from the Soissons to Rheims.

The battle line in the north and center of the line remains practically the same as on Monday, but the Allies have in a small way bettered their positions and have taken prisoners.

The Americans and British at last account were in the suburbs of Baye north of the river while the Germans still continue to hold Chaulnes and Roye. Fresh reinforcements of troops and large numbers of guns have been brought up by the Germans to try

and save the army of the Somme and to prevent the capture of the troops in the pockets.

At the salient points here and there on the front the Germans have made violent counter-attacks but to no advantage. The city of Chaulnes and Roye are under heavy bombardment and allied cross fire, and it does not seem probable that they can hold out long.

Unofficial reports are that the Germans are retreating along the Oise river as far as Nogent. If this is true the entire line north will have to be drawn back to readjust their line with those of the south.

From Ypres to Albert there has been considerable activity on the part of the British and French, but the latest German official report claims that all attacks were repulsed.

On the Vesle river the Germans attacked Pismet held by the French and forced them to withdraw across to the river but later in a counter attack they regained all of the ground lost.

VA. RESORT FIRE SWEEP

Norfolk, Va., Aug. 14.—Fire Tuesday practically swept clear the amusement portion of Ocean View, the bay resort about 8 miles from Norfolk. The flames started in a kitchen and soon laid the park in ruins.

The Ocean View hotel caught several times and was saved with difficulty by a bucket brigade of bluecoats.

ROCHESTER

Rochester, Aug. 14.—There was a fashionable wedding at Holy Rosary church Tuesday morning, the contracting parties being Edward Richard and Miss Mary Sylvain, Jew. Fr. C.S. J. Croix celebrated nuptial high mass.

The couple were attended by their fathers, Joseph Richard and Arthur Sylvain. Vocal selections were rendered by Mary Jane Blodgett and Alfred Lemelin. The bride was attired in white satin and georgette crepe, with veil, carrying a shower bouquet. The groom is employed in the shipyard at Newington and the bride at the Thayer shoe factory. East diocesan after the ceremony there was a reception and breakfast at the bride's home on Chestnut street, after which Mr. and Mrs. Richard left for New York city on a bridal trip. On their return they will reside at the home of the bride. Many presents were received.

Kenneth Meloy of Harrington and Miss Ethel Brown, daughter of Mr. and Mrs. Frank Brown, of Union street, were united in marriage by Rev. Charles Homer Percival at his home on Liberty street, the single ring service being used. The attendants were Mr. and Mrs. Fred Drow of Portland, Me. The bride wore white silk. The groom is a farmer and the bride a shoe shop worker. They will reside at the home of the groom. They were the recipients of many handsome presents.

Charles H. Twombly has received word that his son, Charles W. Twombly has arrived safely across. He is in the electrical department in the United States service.

James Bannon and family of Providence, R. I., are visiting friends in this city. Mr. Bannon was formerly proprietor of Hotel Rochester.

WEDDING ANNOUNCEMENT OF INTEREST

Cards have been received in this city announcing the marriage of Ensign Charles Frederick Peters, U. S. N. R. of Worcester, Mass., and Miss Shirley Choate, of Lynn, formerly of Gloucester, Mass.

Both bride and groom have many acquaintances in this city. The bride is the attractive and accomplished daughter of Dr. and Mrs. Horace H. Choate, formerly of Gloucester, Mass. She attended South College and for the past year was a student at Boston University.

Ensign Peters is a graduate of Dartmouth College. He entered the service on Patriots' Day, April 1917, and with many other Dartmouth College students was assigned to this navy yard soon after for training and stationed here for several months.

He attended the Ensigns school at Cambridge, Mass., and received his commission as ensign the latter part of last June. Ensign Peters was then assigned to the U. S. S. San Diego and was on the ship at the time it was sunk recently going from this port.

Ensign Peters and his bride are both popular, young people with hosts of friends, who extend best wishes for their future happiness and prosperity.

EIGHTH ANNUAL REUNION OF ELIOT ALUMNI

Large Gathering at Grange Hall; Election of Officers.

The eighth annual reunion of the Eliot Academy Alumni Association was held at Grange Hall in that town on Tuesday, about 100 being present. An excellent banquet was served. Several good speakers addressed the members, and a fine musical program was given.

The organization was represented by members from Maine, Massachusetts, New Hampshire and Pennsylvania. Following the business meeting the following officers were elected: President, F. A. Staples; Vice president, E. E. Hanscom; Treasurer, G. E. Hammond; Secretary, J. H. Dixon.

The following patriotic ode, written by one of the members was sung: (Tune, "Hail to the Chief of the Republic") In the beauty of midsummer come we here with cheer and song, With the gladness of reunion where pleasant memories throng. For though youth may weave bright fancies, yet to age the spoils belong, So let good cheer be high.

Chorus. Standing once again together, Heart and hand united ever, Pledging constancy forever, For friendship rules today.

Although charming may be new found friends, modern attractions flow, Hold we fast to old traditions, cling to friends we used to know, And spread the ancient legends which gave Eliot life a glow, In days of Auld Lang Syne.

Chorus. Hail! beautiful Piscataqua, speeding, gray ships over sea! All whose childhood fondly loved thy shores, thy life-long friends will be, So over thy foaming billows toss a cordial welcome free For friends we greet today.

Chorus. And we offer grateful homage to the boys across the sea, Who, while home fires bright are burning, are protecting you and me, As they stake their lives for freedom, pray we all for liberty, While they go marching on, Glory, glory, Hallelujah! Glory, glory, Hallelujah! Victory is marching on.

So raise high the royal banner, pledge our loyalty anew To the flag our Fathers won for us, Our loved red, white and blue, Every star symbol of liberty, each stripe to freedom true:—Time honored flag, wave on, O glory, Hallelujah! Glory, glory, Hallelujah! Trusting in a higher power, To speed our crowning hour.

FISHING SCHOONER SUNK OFF BOONE ISLAND LEDGES

**Hazel L. Rittcey Struck on Ledge and
Later Sunk in Deep Water--Captain
and Crew of Six Men Saved**

The fishing schooner Hazel L. Rittcey, was sunk off Boone Island on Tuesday evening. The schooner was bound home to Gloucester with a cargo of cod fish from Madeline Island, Nova Scotia and she struck the Boone Island ledges just at dark during a fog.

There was a haze at the time and the ship was first sighted by the look-out at the Boone Island station just as she apparently struck on the ledges. Shortly after she evidently worked off the ledge and in a few minutes sank in twenty-five fathoms of water

about two miles southeast of the island.

Captain Stephen Patch and her crew of six men were able to make their way before the schooner went down and later went ashore at the Boone Island station, where they were taken care of for the night.

The schooner belongs in Gloucester and her cargo was consigned to the Gordon P. Fishery at Gloucester. The Captain and crew lost all of their belongings being just able to make the boats before the craft, which stove in her hull, when she struck the ledges, sank.

PROGRESS OF FEDERAL FARM LOAN SYSTEM

The Federal Land Bank of Springfield has issued a statement summarizing the results accomplished by the operation of the Farm Loan Act in the district served by the Springfield institution, namely, the New England states, New York and New Jersey.

That the benefit of the system appears strongly to the agricultural interests is confirmed by the statistics embodied in the report, and justifies the conviction that this legislation will afford an excellent stabilizing influence to the field of rural credits generally.

One hundred and twenty National Farm Loan Associations, through which loans are granted, have been organized with 3500 members, whose loan applications total nearly \$12,000,000. Of this number nearly 3000 loans have been approved by the bank for a total of \$7,000,000. The number of applications and the amounts approved by states are as follows:

Maine	355	\$68,160
New Hampshire	61	\$8,100
Vermont	203	\$18,300
Massachusetts	203	\$1,279,100
Rhode Island	61	\$9,850
Connecticut	336	\$42,975
New York	1,078	\$2,633,665
New Jersey	292	\$13,950

Persons desirous of obtaining information as to the Farm Loan System and the methods used in granting loans should communicate with the Federal Land Bank of Springfield, or with Oscar E. Huse, Secretary of the Pawtucket National Farm Loan Association, which operates in the counties of Rockingham and Strafford.

The Pawtucket National Farm Loan Association has already received applications for loans amounting

13 MORE TAKEN IN BORDER RAID

Officers Intercept Boozing Parties Returning from Massachusetts

Exeter, Aug. 12.—The "Night Riders" made a haul of 13 persons conveying liquor into New Hampshire Saturday night, the scene being changed from Hampton to Salem and vicinity.

At point "A" the officers boarded an electric car and found six with the goods, including one woman, who was the first female to become a victim of the Lewis law. This party was coming from Lawrence and were going to Nphua.

Further down the line at Salem a wagon load of six persons from Lawrence was held up, the vehicle containing a wealth of liquor, and other ingredients for a Sunday's outing, which was booked to take place in this state.

In the Salem municipal court this morning they were arraigned before Judge L. Wallace Hall, and as there was trouble regarding the pleas, the respondents decided to have counsel, and the hearing was continued till tomorrow afternoon at 2 o'clock.

They were taken by Deputy Sheriffs Fred H. Thompson of Hampton, Ivory H. Bennett of Northwood and Fred J. Corson of Candia.

GERMANS DIGGING IN ON THE VESLE

(By Associated Press)

With the American Army in France, Aug. 13 (By Associated Press)—A heavy exchange of high explosive shells, gas and shrapnel shells is being exchanged between the Americans and the Germans on the Vesle river. The Germans made another ineffectual attempt to take Pismette. At last report the line was comparative quiet.

The Germans are digging themselves in north of the Vesle, but the observers are of the opinion that it is not a permanent fortification but simply to hold the allies back until they can reform their divisions and move back in an orderly manner.

FRENCH TROOP- SHIP TORPEDOED

(By Associated Press)

Paris, Aug. 13.—412 men are missing as a result of the torpedoing of the French steamship Djennah in the Mediterranean sea on July 14 or 15. The steamship had troops aboard. Four days later the steamer Australien was torpedoed and another steamer was struck but remained afloat.

SHOULD BE A ONE WAY STREET

The auto drivers who use Vaughan street very much, especially those having any business at the Ship yards are making a big kick over the way that Vaughan street from Congress to Hanover street is congested with automobiles which are allowed to stand. One driver a few days ago bound for a train with a government official got caught in the jam and was unable to get out owing to the fact

that there were cars lining both sides of the street and a stubborn driver holding the center of the street. By the time he got out of the street back on to Congress and around Fleet which was also in its usual congested condition, the man had lost his train. When Fleet street around to Vaughan street was paved it was given out that this was done so that Vaughan street from Congress to Hanover street could be made a one way street, but nothing has come of it, no more than there has been from the parking of automobiles along the main street. It is about time, that somebody with some authority wakes up to the fact that this is a growing city and laid down some rule for traffic that will be observed. It has been just pure luck that there has not been trouble over the way the streets are used for parking cars.

MAN POWER BILL REPORTED TO SENATE

(By Associated Press)

Washington, Aug. 13.—With a broad work or fight amendment designed to prevent strikes and a new passage regarding education of the young men who are under 21 years of age who are called into the army, the Administration man power bill was favorably reported by the Senate Military committee this afternoon. The bill includes all men from 18 to 45 years of age.

The work or fight bill provides that when any man shall be placed in a deferred class, he must work at essential labor and if he fails to, then he may be drafted.

AMERICAN FIELD ARMY NOW FORMED

Now in Same Standing With British and French--- Gen. Pershing Retains Command---Hold Logical Road to Berlin

(By Associated Press)

Washington, Aug. 13.—Secretary Baker was officially advised today that the first American field army had been created and that General Pershing retained command of both the army and the entire expeditionary forces as well. The announcement has a deep significance as it places the American army on the same footing as British and French. It consists of five full corps of 1,250,000 men.

The British stand between the enemy and the channel ports, the French

concentrated between Picardy where they join the British to the Americans left, which stretches from beyond Verdun to the Swiss border. The American position from Verdun to the Swiss border has always been considered as the logical road for an advancement on Berlin.

General Pershing will be situated in every way to study the qualifications of the five men who are corps commanders and to select from one of the five the commander of the army. Here Major General Hunter Liggett is considered the most probable choice.

WOMEN TO REPLACE MEN ON RAILROADS

Washington, Aug. 13.—Thousands of women will be drawn into railroad employment within the next few months to take the place of men entering the army and going to other industries. According to plans now being formulated by the railroad administration, women are to be employed extensively as clerks in railway offices, accountants, ticket sellers, station agents, crossing watchmen, car cleaners and to some extent as truck laborers.

A survey of different classifications of railway positions which might be filled by women will be undertaken soon, possibly by a committee of women to be named by Director-General Meador.

U. S. FLAG HAS DETERIORATED SAYS HAYWOOD

Chicago, Aug. 13.—Testifying on cross-examination Monday in the trial of 100 Industrial Workers of the World for alleged violation of the espionage act, William D. Haywood, general secretary-treasurer of the organization, declared that the American flag "feared by the capitalist class" does not stand for what it once did.

He also asserted his belief that no lasting industrial reform could be accomplished without revolution. Frank K. Nobaker, chief government counsel, attempted to show that Haywood was responsible for the general strike which started last year, in northwest lumber camps and spread to Arizona copper mines, but Haywood denied responsibility and placed the blame for the strike on his lieutenants.

ALLIES TAKE MORE THAN 70,000 PRISONERS

CHECK KNITTING FOR SERVICE MEN

Washington, Aug. 13.—Hand knitting for soldiers and sailors is to be checked until the war industries board can survey stocks and ascertain whether there is enough woolen and worsted in the country for winter uniforms and overcoats.

The board has directed spinners to discontinue manufacturing woolen and worsted yarns for hand knitting and the shipment of yarns or wool until further notice, and to furnish inventories of their stocks with full information concerning the contracts on which they are working.

GERMANS TO TAKE PETROGRAD

London, Aug. 13.—The Germans intend to occupy Petrograd a dispatch to the Copenhagen Politiken from Telegraph correspondents in the Danish capital reports. Troops for this purpose are already being brought toward the objective, it is added.

WOULD MARRY A WIDOW TO ESCAPE DRAFT

Boston, Aug. 13.—Robert Percy Baker, an English sculptor and artist, was given a hearing before Federal Judge Mendenhall on charges of violating the espionage act.

Two society women from the Back Bay district, Mrs. R. D. Boyer, whose husband is an official of the Red Cross in Paris and Mrs. Elizabeth Grinnell, testified that Baker told them he was not convinced that Germany was in the wrong.

He also said, they testified, that while he admired France for its art, it was a brutal nation.

Baker was also charged by Mrs. Grinnell with saying it was outrageous to draft men of his type.

He suggested, Mrs. Grinnell testified, that he might avoid the draft by advertising for a widow with children to support. The hearing was continued until Sept. 16. In the meantime, Baker, who was arrested here Saturday, was released in bonds of \$1,000.

GERMANY NOW WANTS TO SAVE MAN POWER

British Army in France, Aug. 13 (By Associated Press)—A captured secret order signed by Gen. Ludendorff lay stress on saving the man power of the Germans. It went on to say that the two great causes was to maintain the fighting strength and spirit of offensive action. It suggests that all commanders of what ever rank because ended with the idea that a war cannot be won by a stubborn offensive but it must be by an offensive. It speaks of their own weakness of mass formation for attacks and orders it stopped, and also too stubborn resistance for any one point be given up.

MISSING FISHERMEN PICKED UP

(By Associated Press)

Nantucket, Aug. 13.—The crew of six men of the sword fishing schooner Crusier, who were thought to have been lost when their ship was sunk by a German submarine, were brought in here today, having rowed 150 miles until they were picked up off Great Round Shoals.

LABOR WANTS TO SAVE MOONEY

Washington, Aug. 13.—President Wilson today was formally petitioned by representatives of labor throughout the country to use his powers as commander-in-chief of the American army to take Thomas J. Mooney from the control of the California state courts and see that he gets a new trial.

A memorial was left at the White House, and the President, it is understood, will reply to the appeal within a few days. Mooney is under sentence to die for precipitating the Preparedness day bomb outrage in San Francisco. The President has made repeated efforts to secure a new trial for him, thus far without avail.

The Big Display of **MIRRO** Aluminum For a Few Days Longer

Some items were sold out during the demonstration last week, and hundreds profited by learning new cooking methods from our expert. It is absolutely necessary to mark up goods to conform with increased cost, but previous to this we will continue the present prices for a short time only.

A very few of those 2-qt. Sauce Pans are left at 49c, and when these are gone, never again, until it is over "over there." This is a dollar article, and the few left will go quickly.

Some good trades in Preserving Kettles, Coffee and Tea Pots, and Double Boilers. The Percolators were all sold out, and like everything else, the price will be much more on the next shipment. So come in and look things over. There is still time to save in the purchase of high grade aluminum.

Portsmouth, N. H., Wednesday, August 14, 1918.

Let Us Consider and Remember.

A New England newspaper calls attention to a fact that is very generally known, but perhaps too little considered in this time of stress. In speaking of the army casualty lists it refers to the large variety of names—Irish, English, Italian, Russian, Austrian, Scandinavian, Polish, Lithuanian, Greek, German and others—all of which help to demonstrate the extent to which the great American melting pot has done its work. These men are all American citizens, many of them having been born here and others having come from the various countries across the seas, and all are fighting for the ideals of what is now their common country. They stand shoulder to shoulder without regard to nationality, forming a common brotherhood and fighting for a common purpose.

In commenting on this matter the paper goes on to say: "It is an absorbing story and it teaches a powerful lesson. It explains why this country never has been conquered and never will be conquered so long as it remains true to its present ideals and its present form of government. All these men have gone into the great melting pot and have come out Americans—Americans of whom all of us are now proud."

These facts are patent to all readers of registration and casualty lists, but it is probable that they have not been contemplated as they should be. We have been talking for years of the "melting pot," and at the same time hardly realizing what it was doing. Some thoughtless people have complained that the country was being "overrun by foreigners," forgetting that the foreigners who come here remain foreigners but a short time in the great majority of cases. They become American citizens and are ready to do their part toward upholding the country's institutions in peace and in war. Never was this important fact made plainer than it is being made today.

The United States has a right to be proud of its army, in which is to be found the blood of almost every nation on the earth, but there is no distinction in the ranks. Every man is an American battling for the principles and ideals of the freest government the world has ever seen, and this army can never fail if it is true that the world is moving forward and not backward, as we all believe it to be.

But there is one important lesson to be drawn from present conditions, and this is that when the war is over and the soldiers return to the pursuits of peace none should forget that all are Americans as truly as they were when on the battle lines. Let no man, woman or child ever be slighted or ignored because he or she wears a foreign name. No man who is fighting under the stars and stripes today should ever have cause to feel that he performed a thankless task when he risked his life under American leadership for the freedom of all peoples, the Germans included. There are two sides to this "melting pot" business and people of American ancestry must not forget that they have duties to perform as surely as do those who come here from all quarters of the world to make their homes, and to defend those homes and our homes when defense is needed.

The Bethlehem Steel Corporation, one of the largest concerns of its kind in the world, and which is doing a vast amount of work for the government, is preparing to let out a few links and to do business on a still larger scale. For this purpose its property is to be mortgaged as security for a \$300,000,000 bond issue. Truly we are living in an age of big things.

It is evident that Lieutenant Commander Thomas Mott Osborne is not without honor among the men over whom he presides as head of the naval prison here. True it is that "He that hath friends must show himself friendly," and it is equally true that he who shows himself friendly and helpful is never without friends.

Recent rains have brought relief to parts of New England that have been suffering severely from drouth, and it is to be hoped that from this time on all weather conditions may be favorable to the crops, which promise well in most sections in spite of such drawbacks as there have been.

An American gun plant in France rivaling in size the famous Krupp works at Essen may serve to stimulate German contemplation of the criminal folly of the Kaiser in turning the world into a slaughter house.

The government is trying to stop stealing from the railroads, and to that end a large number of thieves have already been landed in the penitentiary. Let the good work go on, and let the rod not be spared.

The talk of making the military age from 18 to 45 years reminds old-timers of Civil War days.

DRIVING HOME OUR DUTY TO OUR FIGHTERS

Speakers Present the Need of War Supplies.

A grand patriotic meeting was held at the navy yard this noon when several thousand employees gathered at the band stand. The meeting was opened by Naval Constructor Schlabach, who introduced Private W. E. Lafay of the United States Engineers, who is just back from France, and George E. Tompkinson.

The object of these meetings is to dissipate German propaganda and to prove to the large army of workers throughout the country the necessity of speeding up work on all supplies for which the brave boys in France are waiting to make use of in their fight against the Hun.

Work was suspended until the big force of workers, standing on the roofs of factory buildings, on tops of freight cars and in every available window and entirely filling the yard, had received the message which caused them to make the voluntary pledge.

Dr. Tompkinson briefly reviewed the situation which caused Germany to make the gigantic effort to overrun the world. He then told of the various methods the Germans have been using in order to cause even the smallest suspension of work in order to hinder the delivery of the various machines of war for which the Saxons and their allies are in need.

"The needs are great," he said in part. "The battle of Gettysburg, the most bloody battle of history previous to this Titanic struggle, lasted three days, and during the entire engagement 30,000 rounds of large shells were fired. Today this number of shells would last seven and one-half minutes. In one recent drive 35,000 shells were fired in three and one-half minutes."

"General Sherman was given three months' ammunition supplies for his great march. This supply today lasts not three months, but ten minutes. Therefore it is your task to make in ten minutes as much as your fathers made in three months. Delay means death to your brothers in the front-line trenches."

"Every hour of idleness means an opportunity for the Hun to shell our boys without protection from our artillery, or for the submarine to sink our supplies because our destroyers were held up on account of strikes. German propaganda would disturb the Irish, stir up jealousy between the French, English and Italian, but you must cover with yellow paint every trouble-breeder and drive him out of the plant."

Private Lafay drove home the necessity for speeding up relating in plain and forcible language many brutal incidents which came under his personal observation during his three years in France, where he was wounded by a German shell and sent home to continue the fight in the manner he is now waging war against the enemy, by dissipating German propaganda and keeping alive patriotism in lukewarm hearts.

He insisted that this is not the war of one class or one race but it is "our war." "The attacks of a nation running amuck among helpless women and children, the killing of many non-combatants regardless of youth or age, the degrading attacks of German officers and men, the needless maiming of many and the horror that Germany is trying to enforce on the world must be brought home to all," he said.

"They cannot break our line, providing an unlimited supply is kept up; providing men give us a full day's work; providing that everyone can put patriotism and country before self in this great cause."

PEOPLE'S OPINIONS

Protests on Street Blockade.

Editor—The suggestion in the Portsmouth Chronicle of this date on the matter of making part of Vaughan street a one way thoroughfare deserves the thanks of all drivers of autos and other vehicles. It is time that the authorities took a hand to relieve the bad conditions there where government autos engaged in war work are constantly held up by the congested traffic. Should this continue the shipyard officials and navy yard heads will find it necessary to take the matter up with higher authorities. It is quite plain that Portsmouth has some officials who do not realize that the city is growing and going along in the same old rut as of old. I am not speaking on this subject for government vehicles alone, but the situation affects dockers, expressmen, mail wagons, in fact every driver who has occasion to make his way between Congress and Hancock streets, especially those who cannot afford to lose time when they are on the way to connect with trains.

ONE WHO HAS SUFFERED.

NAVY YARD NOTES

Will Take on Women.

Just as soon as practicable, the places of all enlisted men doing clerical work in the offices at the Charlestown navy yard, as well as clerks who have been placed in the emergency fleet list on account of their service, will be filled by women. The enlisted men will be sent either to sea or to the receiving ship, while the clerks who are in the draft age and who are in the emergency fleet list will have to take their chances in the draft.

Good Speakers

The patriotic lecture at the yard this noon was largely attended and nearly every man turned out to hear the speakers, Dr. Geo. E. Tompkinson of Philadelphia of the Emergency Fleet Corporation and Private Lesay of the 14th Army Engineers. The address of Dr. Tompkinson was on speeding up production, sticking to the job without unnecessary loss of time. Private Lesay talked on the conditions across the Atlantic and what the men could do to help win the war. Both received much applause and were the best speakers so far heard on such occasions at the yard. The Naval Band furnished music during the meeting. The workmen were much pleased with the talk and appearance of both speakers.

Overcome by Heat.

Three heat prostrations were reported at the yard today. Walter E. Pease of York Beach, a shipfitter's helper who was treated at the yard dispensary and sent home; Miss Harriet T. Tracey, a female operator of York, was overcome while attending the patriotic meeting at noon. After treatment she was able to resume her duties. The third was a marine guard on post duty.

WEALTHY CHINESE AFTER LOCATION IN PORTSMOUTH

Representatives of a Chinese corporation have been in this city for the past three days with the idea of establishing an elaborate cafeteria and lobster palace.

These parties want the best location in Portsmouth as it is said, and no expense will be spared if they can secure the right spot.

It is understood that they will, if they secure any property which the owners are willing to dispose of.

REJOICES IN THIS CITY'S PROSPERITY

Former Portsmouth Resident Writes the Herald and Praises Its Good Work.

The following letter from a former resident of this city shows that the writer is among the non-resident boosters and one who still has the interest of the old city at heart.

Meriden, N. H., Aug. 13, 1918.

Mr. F. W. Hartford, Portsmouth, N. H.

Dear Mr. Hartford:

As a former resident of Portsmouth (High School Faculty '07-'09) I rejoice in the prosperity which has come to that fine old city by the sea, and I hope that ships will be an industry there long after the war. With great interest I read your article in The Granite Monthly early this year. I remember you and your papers have always been boosters of Portsmouth.

Since leaving Portsmouth I spent a year at Harvard Law School, and then went to Holyoke, Mass., where I am head of the History Department in the high school. Summers I am a hotel man. I worked my way through Brown by bell-hopping at The Ocean-side Hotel, Magnolia, Mass. Then I clerked four seasons at the Farragut House and this is my sixth season as manager of a small inn here in Meriden. Some Portsmouth friends will be interested, perhaps, and so I enclose a booklet just issued.

Yours truly,

J. O. COOK.

DESPERATE DEFENSE BY THE ENEMY

(Continued from Page 1.)

With the British Army in France, Aug. 14.—There was no change in the situation on the new Somme battle-front this morning except for the fact that a considerably increased artillery fire indicated that the enemy had finally decided to bring up more guns. Various small artillery concentrations have sprung up during the last few hours and are now active in firing on some points within the British line. The Germans also have subjected the valley north of Morlaucourt to heavy gas shelling and have similarly treated Harboulles and the Gressaire wood region.

No further counter-attacks by the enemy are reported. In the region of Bray, north of the Somme, as well as immediately south of the river the British have been actively strengthening and pushing forward their lines. Northwest of Bray the British made the enemy lines and found them unoccupied.

STATE BOARD ENDORSES MILK PASTEURIZING

The State Board of Health as a result of the hearing held here on Tuesday, have endorsed the request of the United States Public Health Service for pasteurized milk, but refused to pass an order making it compulsory.

The Board said that while they believed that it would be a proper thing to safe guard public health, they thought that the action would be too drastic. They however issued orders that the milk laws regarding the inspection of milk and dairies should be strictly enforced which means that many of the dealers will lose a good part of their cows, for the tests show that forty percent of some herds show signs of being infected with tuberculosis.

There is but little doubt but what some of the dealers will install a pasteurizing plant, for there is a prospect that the government may demand it for all government reservations in this section.

DOVER

Dover, Aug. 14.—The meeting of the Stratford County Republican club to be held at Central park on Wednesday, Aug. 21, is being looked forward to by the Republican politicians of this section of the state. Many invitations have been extended to prominent men in the state and nation.

Chairman Whitcomb of the local draft board Tuesday morning received an official notification of a call for special or limited service men, six of whom will be entrained from Stratford county on August 30 for Camp Upton at Yaphank, N. Y. This call is for a hundred limited service men from the entire state and each district is called upon to furnish either six or seven registrants, none of the 16 districts being called upon for more than seven men. This is the third call for special service men to be received in this district, the first for four, the next for 10 and then this one making a total of 20 special service men to depart within a month.

The Atlantic's defeated the Shattuck team Tuesday night in the Sunset League in a good game other than the second inning when the Shattuck team went up in the air and when they got back the game had been settled. The game was witnessed by one of the largest crowds of the season, but there was not half the rooting that was to be expected, when two such rivals meet. The Atlantic team appeared for the first time and they made a fine impression playing between the innings. They came direct from work and the majority of them had not washed up so that it looked like a workman's hand.

The Atlantic team has been materially strengthened, Lohman formerly of the Hartford Eastern league team was in the box and he pitched fine ball, the Shattucks getting four out of their five hits in the second inning but were only able to get across a run. Ralph Brackett formerly of the Shattuck is now with the Atlantic and he caught a fine game, and had his team working well all of the time. Sweet was a second base and he played a fast game one stop well over second base and his throw to first being the feature play of the game. Damron played first base and he covered the bag like a veteran.

Johnson pitched for the Shattuck team, but he was inclined to be wild and allowed six passes. His passes along with four errors in the first two innings and one lone hit belted five runs. He felled his position in fine shape getting seven assists and he knocked down one other drive. He caught three men mugging off bases being very accurate in his throwing. After the fourth he had better control and stopped further scoring. Conlon played a fine game at short other than his one bad throw to first base that netted two runs in the second inning, he made several fine stops.

The Wooden ship builders were out in order in the first, the Steel men opened with Parent flying to left, Sweet got a pass and stole second. Kienaid hit to center and Dugan booted the ball, Sweet scoring on the play. Kienaid was caught off first and was thrown out at second, Damron was passed and he scored on Sweet's long hit to right center that Beaudoin muffed. Brackett was thrown out by Conlon.

The Shattuck got across their run in the second after Meehan had been retired at first, Kienaid hit for three bases to right field the ball going under an auto and he scored on Mitchell's Texas leaguer over short, Meekon hit to third, Silva forcing Mitchell at second, Beaudoin singled to right but Johnson fled to Parent.

The Atlantic scored three runs in their half of the second, Silva hit to Mitchell who let it go away, he was advanced on Pilgrim's sacrifice, Lohman drew a pass, Parent walked filling the bases, Sweet hit to Conlon who forced Silva at the plate and Meehan in trying to double at first over-throw and Lohman scored. Kienaid hit a sharp grounder at Conlon who threw well over first and Parent and Sweet scored, Damron was thrown out by Conlon.

In the fourth the Shattuck got a

man as far as third when Kienaid singled and stole second, Brackett's throw being wild and he went to third but Mitchell and Meekon fled to Kienaid. In the sixth they got a man on with Dugan's single but the slide was retied on a sharp double play. Parent to Sweet to Damron.

TO DECIDE ON STATE CHAMPIONSHIP

A meeting of the Executive committee of the New Hampshire Golf Association will be held on Friday, Aug. 16, to decide whether the annual state championship tournament will be held or not.

At the annual meeting it was postponed owing to the war conditions, but there is a sentiment among the golfers that it should be held and the entrance fees donated as they were last year to some war fund.

AGED FISH WOMAN KILLED BY AUTO AT SEABROOK

Mrs. Blenna H. Breed, 66 years old, of Railroad avenue, Seabrook, while pushing along the main street a cart from which she sells fish, was instantly killed Monday afternoon when she was run down by an automobile driven by Phil Trobe of 119 Pine street, Lewiston. Trobe, who is said by the police to have been drinking, sped from the scene, but was caught by another autoist after a chase of several miles and returned to Seabrook. He is held by the police of that town.

Mrs. Breed was a well-known character thereabouts. For several years she had earned her livelihood by selling fish from a small push cart. She was wearing her way slowly toward when the Trobe machine struck and knocked her down. She suffered a fracture of the neck, skull and right leg. She died almost instantly.

HE'S OUR KID

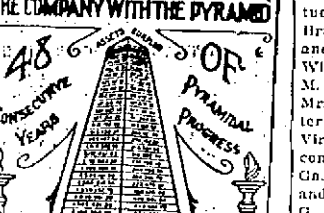

Paris, Aug. (By mail)—Jean Passard is eight years old. The war has left him an orphan and without relatives. Just how he came into the possession of a certain regiment of engineers in France is clouded with mystery, but he did come into their possession and was officially adopted. When an American regiment adopted a French kid, and many of them have done so, there is no half-way business about it.

"He's our kid and our mascot, and he isn't going to be brought up an ignorant," was the consensus of opinion, so the hat was passed, and Jean came into possession of five thousand francs to be used to educate him. That is a thousand dollars in American money.

Jean was fitted out with a tiny American uniform, and with a whole regiment to keep an eye on him, he is developing rapidly into an American. As so into a military man. Some time ago, his adopted father was called to the front, and had to leave Jean behind, to his regret and theirs. Now he is being cared for and fed and educated by the local Y. M. C. A. organization.

His business in life is teaching French to American soldiers and he says to all and sundry who apply for information that he is going to New

WILL ISSUE MILEAGE BOOKS

Washington, Aug. 14.—Passenger mileage books, interchangeable and good on many railroad, will be placed on sale next Tuesday. They will be accepted in payment of passenger fares on trains in exchange for tickets and for extra baggage charges. Two books are being prepared one with 1,000 coupons, each coupon worth three cents or one mile of travel, to be sold for \$30 with the addition of \$2.50 war tax collected when the book is bought, and another 500 coupons, selling for \$15 with \$1.25 additional war tax.

Each book is to be transferable and may be used for any number of passengers at the same time. Travelers may present these books to conductors on trains if they wish, but are advised to have the mileage script exchanged for tickets between points where there are long and short routes in order to gain advantage of the shortest distance and lowest charge.

Railroad administration officials decided not to make the mileage script acceptable for pullman charges, because the war tax on berths or parlor car seats is 10 per cent or 2 per cent higher than on passenger fares. This would have complicated the collection of war taxes.

HARD BLOW STRUCK AT DAN CUPID

Geo-goo parties on the sands of famous Hampton Beach will likely become frequent if the edict of the authorities that henceforth spooning and other forms of evening outdoor sports are barred at Salisbury Beach.

The order says that no fair damsel and their warrior escorts may remain on the sands after curfew tolls at 10:30 p. m. They are further warned against trying to buck this order, because if they do it is likely to go hard with them.

The announcement yesterday brought sadness to the many frequenters of the popular Massachusetts resort as they thought of the happy days gone by and the many midnight squeeze expeditions, now all a thing of the past. Ever since the rise in popularity of this famous resort Dan Cupid has directed couples here to carry out their love-making, unimpeded, except for the occasional attack of the sand flea.

This summer the beach has been popular more than ever and hundreds of visitors have flocked there. The geo-goo parties on the beach have been continued, the young folks having possible submarine attacks from a lurking Hun raider, off the coast. Following the issue of this edict of the authorities, the star gazers, love pirates and other geo-goo artists will doubtless transfer their base of operations to Hampton Beach and the apostles of Dan Cupid now occupying the sand colony at the latter resort, hope that the ex-Salisbury Beachites will not bog it and take up any more room than is absolutely necessary, as the population of the colony is already large.

The government authorities have also put another damper on the beach life at Salisbury. Dance hall proprietors have been ordered to allow no more so-called "moonlight" dances, and this has saddened the hearts of the multitude who frequent the resort. The young folks agree that war is indeed what Sherman said it was.

WEEKLY SOCIAL FOR ENLISTED MEN HELD

The weekly social for enlisted men held at the Methodist vestry last evening was largely attended and a pleasant occasion.

The pastor, Rev. Rollin S. Tuttle, had general charge of the affair and arranged games and contests which furnished no end of merriment.

Chorus singing opened the evening's festivities, after which there were games and contests which proved most interesting. Currying peanuts on a fork, a nail hammering contests created much mirth. An exhibition of club swinging by Thomas Salmon, an enlisted man, gave evidence of his ability and several stunts by enlisted men added to the success of the program. Refreshments of fruit punch and fancy wafers were served. The party ended with the singing of the "Battle Hymn of the Republic" by all and a prayer by the pastor.

P. A. C. DINED BY PRESIDENT COLEMAN

President Fred W. Coleman of the P. A. C. gave the boys a spread on Tuesday evening in honor of his marriage. The boys enjoyed salads and ice which were served after the regular meeting.

President Coleman took occasion to thank the members for the elegant gifts of a clock and lamp which he had received. The club voted to observe the regular anniversary at the club on September 10th. It was also voted to join with the Elks on their outing September 17 at Nahant.

"MOTHER"

Swift flight of Time!

'Tis just one year

Since you have left us,

Mother dear,

For your journey all alone

To that sphere as yet unknown.

Oh, may you rest of our Dear Lord,

A mother's "hoo,"

Barned "neath the rod,"

That when the roll is called in Heaven,

None may be missing from your seven.
